FLOOR DEBATE

April 10, 2001 LB 75, 305, 435, 461A, 462, 666

SPEAKER KRISTENSEN: One minute.

SENATOR SUTTLE: These old cells start clumping together, and when I speak up again I will tell you a little bit about the anatomy and physiology of Alzheimer's disease and the cells that they...the disease affects. For the record, I would also say that I did not think that Senator Brashear could not explain why in the past it's okay and in the future it isn't to use fetal cells. I said I didn't understand the logic. Thank you, Mr. President.

SPEAKER KRISTENSEN: Mr. Clerk, items for the record.

CLERK: Mr. President, Enrollment and Review reports LB 461A as correctly engrossed. I have a Reference report referring a certain resolution to the Revenue Committee for public hearing. Senator Robak, an amendment to LB 75 to be printed; Senator Coordsen to LB 435. Your Committee on Appropriations reports LB 666 to General File, and Education reports LB 305 to General File with amendments. (Legislative Journal pages 1452-1453.)

Mr. President, I have a priority motion.

SPEAKER KRISTENSEN: Mr. Clerk, before you read that, if I...

CLERK: Yes, sir.

SPEAKER KRISTENSEN: ...could just a moment please, to give some direction to the body, I would try to give you some direction as to what we may do this afternoon. Obviously, we'll come back after lunch and continue on with this bill. In ref...or in deference to the Appropriations Committee, I would like to see us go to 4:00-4:30 today. They have a long evening this evening. Tomorrow evening I could see us going until 6:00 or 6:30 at that point tomorrow, so if you want to make some plans accordingly to your schedules tomorrow. Mr. Clerk, item for the record.

CLERK: Mr. President, Senator Brashear would move to recess until 1:30 p.m.
